

Dartskins BAGOUT: Official Rules

Players: 2-6 players

Equipment:

- Dartskins BAGOUT game and pins for set up (first, un-clip the number ring of the dartboard and pin to the dartboard).
- Darts
- Scorecard As shown:

	KYLE	ANDREW	DEVON
B	△		
A			△
G		△	
O			△
U			
T	△		

Gameplay:

- **Objective:** Be the first player to successfully land all designated fish and complete "B-A-G-O-U-T" on your scorecard.
- **Catching Fish:** You catch fish by hitting a sequence of 3 targets:
 1. **Bait:** Hitting a bait section allows you to choose a specific fish to target.
 2. **Fish Target:** After hitting a bait, aim for the corresponding fish target. A successful hit lets you proceed to the final step.
 3. **Net:** Finally, hit one of the nets beside the boat to "land" that fish. The scorer will complete a triangle on your scorecard for that fish, signifying it's caught.
- **Multiple Baits:** You can set multiple baits at once, but you must catch fish in the order their baits were hit.
- **Snags:** Hitting a snag icon removes progress. The scorer will erase either a bait or a completed fish/bait combo from your scorecard.
 - **Removing Snags:** Players must first hit the scissors target to clear a snag to resume fishing.

Scoring:

The scorer keeps track of your progress on the scorecard:

- A hit bait earns a line drawn to start a triangle next to the corresponding fish letter.
- A hit fish target adds a second line to the triangle.
- A hit net completes the triangle for that fish, signifying it's caught.

Winning:

The first player to complete "B-A-G-O-U-T" by catching their bag of fish wins the game!

On the Line is In: A dart touching the line between sections counts as hitting that section.
